A Few Facts in Regard to the Losses.

On the morning of June 19, 1900, within a brief space of eight hours time, the fair city of Bloomington, Illinois, lost the most attractive part of the business portion of the city, destroying over two million dollars' worth of real estate and personal property. The fire started at about twelve o'clock, on the 18th day of June, in the Model Laundry, on east Monroe street, and continued until about eight o'clock the following morning, extending three blocks west and two south. The following list of losses will give a good idea of the extent of the fire.

PROF. W. D. JONES

Originator of the Jones Method of Magnetic Healing.

Every known disease cured without Medicine or Surgery.

THE NATIONAL SCHOOL OF MAGNETIC HEALING teaches the "Jones Method" in a six week course of scientific instruction in Magnetic Healing. You can learn to cure yourself and others without the use of poisonous drugs or the merciless knife. The "Jones Method" is based on the higher educational workings of mankind and is known throughout the land, and some of the most wonderful cures of the age have been effected through this method. Prof. W. D. Jones, who is at the head of the National School of Magnetic Healing, is the originator of this great system. He has devoted his entire life to the study and practice of this science, and gives to his pupils a greater degree of proficiency than can be obtained from any other source. People who have taken diplomas from this school are located in every state in the union, and every day letters are received telling of their wonderful success in practicing the "Jones Method," a science so simple that anyone can learn it.

Send your name and address and receive the *Magnetic Leader*, a 40-page journal published under the personal direction of Prof. Jones & Son. All correspondence regarded as confidential. Address,

Almost seedless and coreless.

Makes the most beautiful ornamental trees.

Hardy as an oak. The original tree is 80 years old, 55 feet high, and over 10 feet in circumference.

Bloomington Store Fixture Company

MANUFACTURERS OF

**Bank Furniture, Modern Store
Fixtures, Fine Show Cases
IN MANY STYLES.**

Nearly every store in Bloomington built or re-modeled since 1894 has been fitted up by us, and a large number of them were totally destroyed by the great fire of June 19, 1900. Some of them were provided with as fine fixtures as were ever made. For many years Bloomington occupied a very conspicuous *back seat* with reference to fixtures and show cases, and it is only within the last two or three years that she could boast of being anywhere near "out of the woods,"—and all due solely to our efforts,—and now it must all be done over. But no fears of overtaxing our capacity should be entertained; we are equal to the occasion.

We are better prepared than ever to do
